

earthly fortune and the most profound human suffering were alike unknown to her. In the greatness of soul with which she bore an incurable malady she showed herself a true companion of the German hero who, by his suffering and his death, will ever remain dear to the hearts of our people. By his side she now sleeps, and her name will endure among the names of the great princesses who have adorned the throne of the Hohenzollerns.

#### PRESIDENT IS NOTIFIED.

**Ambassador White Cables News of the Death From Berlin.**  
Washington, Aug. 5.—A dispatch was received at the state department today from Ambassador White, telling of the death of the dowager empress of Germany. The dispatch was sent to the president at Canton.

Official announcement of the death of the dowager empress Frederick had not been received at the German embassy here up to a late hour today, but it is probably will be communicated to Manchester-by-the-Sea, Mass., where the Countess, German charge d'affaires, and most of the officials are located for the summer.

#### NEWS RECEIVED IN LONDON.

##### Official Recognition of the Death Will Be Made Today.

London, Aug. 5.—The news of the death of the Dowager Empress Frederick spread slowly in London. The Associated Press gave Buckingham palace, Marlborough house and the Mansion house the first information that her majesty had passed away. As all members of the royal family were on the holiday, it is probable that no official recognition of her majesty's death will be issued before morning. The bells of St. Paul's cathedral will be tolled for the dowager empress. Mr. Ritchie, official secretary, Mr. Ritchie, officially informs the lord mayor of the death of the dowager empress.

##### KING GOING TO FUNERAL.

Edward Will Start for Berlin Next Wednesday.

Cowes, Aug. 5.—King Edward received the official news of the death of Dowager Empress Frederick on board the royal yacht almost simultaneously with the receipt of the Associated Press dispatch in London. The yacht, which was immediately half-masted.

##### FAINT HOPE HELD OUT OF STRIKE SETTLEMENT

eral strike order not a wheel will be turning in Vandersgrift, Apollo or Hyde Park.

**Strikers Out of Jail.**  
From Wells, O., the following report is made: "The last four of the striking steel workers who were arrested Saturday afternoon with riot, were released from jail late this afternoon on bail. There are warrants yet in the hands of the police for seven more of the strikers. The officers, for some reason, seem to be afraid to serve the warrants. Henry B. Henderson, a potter, for whom the police have a warrant, has been trying to get himself in the way of the officers all day to have them arrest him, but they will not do it for the reason that Henderson is backed by the National Brotherhood of Operative Pottery, and the officers fear the vengeance of the potters, once they are aroused, as they would be if one of their number were put under arrest."

"Secretary Duffy of the potters, when seen today denied that the brotherhood had any intention of calling its members out in sympathy with the steel workers, though he said the brotherhood would extend them both financial and moral aid."

"Four new men were brought into the mill from Scotland today and four of the strikers deserted the union and went back to work. Five mills were working today and four are working tonight, the largest number run any day since the strike began."

"Vice President John H. Appelle of Newcastle was here today between trains, and said that all the steel mills belonging to the United States Steel corporation were called out to work. Further than that he refused to talk."

##### Money for Strikers.

An ordinance has been drawn by Common Councilman James M. Wampler of the Fourth ward, appropriating \$50,000 for additional paying and securing in McKeesport. Only taxpayers are to be employed at the work. It is intended for the benefit of the strikers in case the strike is prolonged. Labor leaders will bring great pressure to bear on councilmen to have the ordinance passed. It would furnish work for most of the strikers for almost a year.

Simon Burns, president of the National Window Glass Workers' association, and general master workman of the Knights of Labor, made a proposition this afternoon to the Pittsburgh leader that he would agree to a high per cent assessment out of his salary each week to aid the Amalgamated association as any national officer, ex-officer or member of any organization in the country. If they will agree to this, he says he will give his entire salary as president of the Window Glass Workers' association.

He has not drawn any salary as general master workman of the Knights of Labor on account of the order's financial condition, but will also include that when he receives it. The offer, he says, is intended particularly for the national officers of the American Federation of Labor.

##### Senator Clark Has a Strike.

Phoenix, Ariz., Aug. 5.—A dispatch from Phoenix says Senator W. A. Clark has sent an ultimatum to the striking miners at the United Verde copper mine, flatly refusing to grant their request for an eight-hour day. Nearly 300 men are out. The miners declare that there will be no violence. Only about 100 men are at work.

##### Hit With Brass Knuckles.

As a result of attempting to threaten a colored inmate at a Victoria alley resort early this morning, a drunken miner, who would not give his name, was slugged in the head with a pair of brass knuckles by a white friend of the woman. The miner received a severe gash in his forehead, but was not seriously hurt. The man with the knuckles made his escape.

## STRIKE SITUATION IN SAN FRANCISCO

### Efforts of Mayor Phelan at Settlement Have Failed.

### BOTH SIDES STUBBORN

### LOOKS LIKE THE STRUGGLE WILL BE A PROTRACTED ONE.

San Francisco, Aug. 5.—The outlook for an amicable settlement of the strike has considerably diminished, and tonight the indications are that the contest will be a protracted one. The efforts of Mayor Phelan to bring about an understanding between the opposing interests have failed, and he has been reluctantly compelled to abandon them, at least, his position as mediator.

The executive committee of the City Front Federation met this morning, but transacted no business of importance, pending the receipt of an expected communication from the mayor, who was to have transmitted a statement from the Employers' association. This was expected to be the nature of an ultimatum and to clearly define the attitude of the employers, but it was not forthcoming.

##### Failure of the Mayor.

The mayor considers his services at an end, but states that he believes that negotiations have resulted in giving both sides a better understanding of their respective demands. He urges that the concessions offered be accepted and industrial peace restored.

##### Situation on the Water Front.

There was little change in the situation on the water front today. More men were at work than on Saturday, but as the new hands were inexperienced, not much was accomplished toward relieving the congestion of freight. Only one vessel sailed today, the *Boonville*, bound for Europe, a coast work. Nearly a hundred men were at work on the dock of the Oregon Railway & Navigation company, unloading the steamer *George W. Elder*, which arrived from Portland Saturday. At the Mail dock a large force of men was employed on the steamer *Panama* and *America*. Mary, Captain Wilson, in command of the dock, said that he had 190 men at work.

## WILL TOUCH ON TARIFF LIGHTLY

Congress Will Do But Little General Legislation.

### SENATOR CULLOM TALKS

HAD JUST RETURNED FROM VISIT TO THE PRESIDENT.

Chicago, Aug. 5.—After a visit to President McKinley at Canton, Senator Cullom says there is not likely to be any general tariff legislation next winter, but that some of the pending commercial treaties ought to pass the senate. Asked as to the story that Senator Hanna had gone to Canton to get aid from the president in settling the steel strike, Senator Cullom said: "I know there is nothing in that report. Senator Hanna, President McKinley and myself talked of the strike as we did of other matters of current interest, but there was no suggestion from Senator Hanna that we should be mixing up in the matter at all."

Speaking of the action likely to be taken by congress at the next session, Senator Cullom said: "We shall have to enact some legislation regarding the Philippines, but not much, I think. Porto Rico is the real question. As far as Cuba is concerned, it has accepted the American proposals and we have nothing more to do there. It is not to be worked out by its own salvation. From all the information I can get, the feeling is growing stronger in Cuba every day in favor of a final annexation to this country. It will grow stronger and stronger as the Cubans find their neighbors in Porto Rico enjoying the benefits of free trade with this country, which they are debarraged from."

##### What prospect is there of tariff legisla-

##### tion by congress next winter?"
